Savannah's Organic Ranch (SOR) is a non-profit organization that began as the dream of an 8-year old girl named Savannah Lee Sachen, who bravely battled an extremely rare form of cancer for three years. As a passionate nature and animal lover, it was Savannah's goal to become an organic farmer when she grew up. She hoped to educate others, especially children, on how eating healthy and organic foods, and growing them in an earth-friendly and sustainable manner, benefits not only our bodies but animals and the earth we all share.

Savannah did not live to fulfill her dream, but it was her parents' intent to keep that dream alive. They, along with loving volunteers, started SOR, and are raising funds to educate children and the community on organics through outreach programs and on-site interactive farming programs. Finally, Savannah's Organic Ranch will provide aid to families and researchers who are fighting against pediatric cancer.

Savannah's dream can only be realized through the generous support of people like you and we thank you.
